# True-companion

| | |
|---|---|
| Priority | High |
| Status | Business ideas |

About:

At core, it is a companion for personal productivity to enhance human knowledge by supporting in research, philosophy, building, finances etc

Vision:

A true companion who knows you to make you grow. you can make the best out of you.

Structure:

| | | | | |
|---|---|---|---|---|
| Base -<br><br>This will power the canvas GUI design. Click anywhere to chat with the system LLM and drop the response in that canvas point only. This GUI can input any file to understand the requirement | | | **LLM model Tweaked as a companion** | |

| | | | | |
|---|---|---|---|---|
| | | it will have memory across the person, ambitions, likes and dislikes - dynamic memory for optimum usage of queries.<br><br>Memory needs to understand the persona across all the activity it does | security core- tight along with guardrails and monitoring input/ output token usage pattern as well | spawning off agents quickly from this base, integrations/ connectors with world data and other agent communication layer.<br><br>User can generate agents inside any of the 3 focus areas |
| | | | | |
| Mid layer - | | | Capability to spawn off multiple agents using connectors | |
| | | | | |
| High layer - | | | | |
| Focus area #1 | | | Read/ Write/ Research | |
| | | Different set of agents which help with increasing the knowledge of user | For example<br><br>• news around global events and sports<br>• philosophy<br>• newsletter summaries from email<br>• document findings and notes | It can be turned into widgets which can stay on top of the canvas |
| | | | | |

| | | | | |
|---|---|---|---|---|
| Focus area #2 | | | Build | |
| | | Agents that can help to build something, design a prototype - basically bring your imagination closer to reality | For example<br><br>• Hardware prototype design<br>• video editing/ generation<br>• sound generation<br>• vibe coding/ algo checker for best code | |
| | | | | |
| Focus area #3 | | | Grow/ Finance | |
| | | Learn about finance and growing in life, by understanding your core needs from life | • track current finances and align with goals<br>• learn about your investing style and keep you updated about the latest in that segment | |
